# Complaint Diary – Log noise, dust & nuisance issues

Use this diary to record incidents involving noise, dust, vibrations, fumes, construction disturbance, or similar nuisance issues. Detailed records can help support complaints made to landlords, councils, housing associations, environmental health teams, or contractors.

What to record:
• Date and time of incident
• Type of disturbance (noise, dust, smell, vibration, etc.)
• How long it lasted
• Impact on you or your household
• Whether photos/videos were taken or complaints reported

| Date | Time (start and end) | Issue type (e.g. noise, dust, etc) | Description (including what effect it had on you) | Photos/ videos? |
